File specification concerning Sickness Notification AGS

Description of file details for Afa Försäkring Sickness Notifications. All information is mandatory. The format must be correct for file upload to be successful. The correct format for each value is shown below.

No.	Name	Format	Description	Example	Comment
1	OrganizationNumber	string	Corporate identity number assigned by SCB.	9999999999	10 characters
2	Personal-Number	string	State the personal identity number of the employee.	19770707-7777	12 characters. The insurance applies persons up to and including the month before reaching the age of 66.
3	InsuranceNumber	Alphanumeric	Corporate insurance policy number that has been assigned by FORA and applies to the employee.*	1231231	Max. 7 characters
4	Sick-LeaveDate	String (YYYY-MM-DD)	First day of sick pay period.	E.g. 2022-05-01	If the first day of the sick pay period is 1 st May, sickness notification can be submitted on 15 th May at the earliest.
5	SickPayId	int	State entitlement to sick pay	E.g. 1	See attached translation table: Sick-pay/SickPayID
6	SickPayDays	int	If SickPayId = 5, state the number of sick pay days for the employee concerned.	If sick pay is “number of days” (5) state example 7	See attached translation table Sick-pay/SickPayID
7a	SickPayPeriodFrom	String (YYYY-MM-DD)	If SickPayId = 4, regarding question 5, state the first date in the period.	If sick pay is “other period” (4) state the first date, e.g. 2022-05-01	See attached translation Sickpay/Sick-PayID

7	AKAP-KL	AKAP-KL
8	AKAP-KR	AKAP-KR

Preparation of file

The file shall only contain employees who have taken sick leave for more than 14 days. The simplest way to do this is to register Sick leave period on "löneart x" which is for the 15th day and thereafter. (This does not concern employees who are 66 or over.)

Example of files that can be used for upload

Both of the formats below are supported.
